Cu multă stimă pentru artistul tînăr sau experementat care va servi felii din această culegere sau va încerca cu puțin studiu, un "Diptych" mai greu de degerat.

Îl preîntîmpin să nu se obosească căutînd acele lucruri care servesc drept sudură în lucrări ciclice, mă refer la tot felul de procedee și similitudini care bucură ochiul analiștilor. Nu va găsi prea multe, deoarece stilul pieselor e la fel de divers precum amalgamul de muzici ce pot fi auzite în Moldova. Astfel, în "La Putna" melosul e de origine bizantină, în "Doinind" e folcloric, iar "Obsesiune" e în stil gez.
